

Town of Otis

Request for Proposals

The Town of Otis requests proposals for an engineering study of the St. Paul's Episcopal Church building. The scope of the work requested includes a complete dimensional survey of the entire timber structure including all structural elements, connection, roof truss members; determination of the building's square, level and plumb; first floor framing measurement and an analysis to determine floor loading. The Town also seeks recommendations as to how best to address structural issues that are identified in the study as well as estimates of the costs associated with each of the recommendations. Please direct questions to Town Administrator Chris Morris at 413-269-0100 ext. 112 or townmanager.otis@gmail.com or Larry Gould, Building Inspector at 413-269-0100 ext. 110 or bldginspotis@gmail.com.

Proposals must be received at the Otis Town Hall, 1 North Main Road, MA 01253 by 3:00 p.m. Wednesday October 18th. There will a mandatory site visit Wednesday October 11th at 3:00 p.m.
