

In partnership with the Otis Board of Health and Clearwater Recovery, we cordially invite you to join us on **March 28, 2018 at 6:00 PM at the Otis Town Hall (1 North Main Road, Otis MA)** for a **FREE** septic seminar to talk Innovative/Alternative Septic Systems. This **free** seminar satisfies the Otis Board of Health continuing education requirements that are mandated to keep local septic re-certifications valid. We look forward to seeing you there. Space is limited so please contact Heather Venne (269.0100 x 104) to register!!!

“ALTERNATIVE” IS NOT A BAD WORD

Failed systems can now have fully functioning septic systems!

Innovative/Alternative Septic Systems:

- Types of Permits: Piloting - Remedial
- Operations and Maintenance (O&M)
- Residential Wastewater General Specs
- Jet Bat & Drip Dispersal Technology
- Benefits of an I/A System & Pros and Cons
- Challenges of I/A Systems
- Return to Compliance
- Q and A with Stephen B. Nelson, Owner of Clearwater Recovery

Clearwater  Recovery
